wpDataTables

Gravity Forms integration for wpDataTables
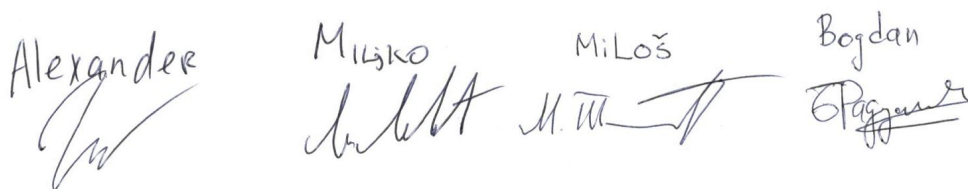

First of all, thank you for purchasing the **Gravity Forms integration addon**! **You are awesome!**

This addon provides functionality of displaying the Gravity Forms entries that your site visitors made in interactive wpDataTables. In order to always keep documentation up-to-date, **we provide documentation online only on this link**. You will find thorough explanation of all the features, with demos, examples and video tutorials.

If you are looking for support you are **welcome on our support system here.**

We hope you will enjoy using our plugin and the addon!
